Making the Blocks

- 1. Randomly arrange one 4%" print triangle, two 2%" cream triangles, and one 2½" print square as shown. Sew the cream triangles to adjacent sides of the print square and then add the print triangle. Make (96) units.
- 2. Draw a 2½" circle on template plastic. Cut out the circle template, cutting on the drawn line. Following the manufacturer's directions, use the template to trace (48) 2½" circles onto the paper side of the fusible web. Fuse the circles to the wrong side of the fabrics as indicated in the cutting list. Cut out each
- 3. Fold the 4½" cream squares in half vertically and horizontally and finger-press to establish centering lines. Position a prepared circle in the center of each cream square and fuse in place. Use a matching color thread and the machine stitch of your choice to finish the raw edges of each circle. Make (48) circle units.
- 4. Lay out six units from step 1 and three circle units from step 3 as shown. Join the units into rows and then join the rows to complete a block. Make (16) blocks.

circle on the drawn line.

Assembly

- 5. Lay out the blocks in four rows of four blocks each, rotating the blocks as shown in the photo to form a large diamond. Join the blocks into rows and then join the rows together to make a 48½" square.
- 6. Join the 2"-wide cream strips end to end. From the long strip, cut two 51%"-long strips and two 48%"-long strips. Sew the shorter strips to the sides and the longer strips to the top and bottom of the quilt top. The quilt top should measure 51%" square.
- 7. To make the pieced border, sew together (16) yellow quarter-square triangles, (16) cream quarter-square triangles, and (17) 2%" print squares as shown to make a border strip. Sew one 2%" cream triangle and one 2%" yellow triangle to each end of each strip. The strip should measure 3½" x 51½". Make (4) border strips.

8. For each corner block, sew together three 2%" yellow triangles, one 2%" cream triangle, and one 2%" print square to make a 3½" block. Make (4) blocks.

- 9. Sew two borders from step 7 to opposite sides of the quilt top. Sew a corner block to the ends of the remaining two strips and sew them to the top and bottom of the quilt top.
- 10. Join the 2"-wide yellow strips end to end. From the long strip, cut two $60\frac{1}{2}$ "-long strips and two $57\frac{1}{2}$ "-long strips. Sew the shorter strips to the sides and the longer strips to the top and bottom of the quilt top.
- 11. Layer the quilt top with batting and backing; baste. Quilt as desired and bind the edges to finish.
